Chapter 2

Testible questions

2.1 Formation of the solar system

According to the Nice Model, what caused the "reorganization of the solar system?"

- Jupiter's and Saturn's 2:1 orbital resonance.

Summary the Nebular Theory:

- Collapse of a nebular due to gravity
- Majority of the material from the clouded ended up in the center - forming the early Sun
- The shrinking and accelerating caused the cloud to flatten into a protoplanetary disk.
- The disk was the birth place of the planet
